

Law and Economics of Insurance and Finance (Economic Area)

**Bologna Campus - Second cycle degree/
Master - International programme**

ALMA MATER STUDIORUM
UNIVERSITÀ DI BOLOGNA
SCUOLA DI ECONOMIA E MANAGEMENT

Admission Requirements

1st cycle Degree (Bachelor's Degree) or a comparable Diploma, with major in the areas listed in the call for applications. The course has a limited number of available positions. The ideal candidate has adequate knowledge of economics, law and quantitative methods. The assessment of the candidate's potential and motivation is based on his/her curriculum vitae, record of studies and other elements specified in the call for applications. Details on the number of positions, selection criteria and required documents are published on a yearly basis in the call for applications. English language proficiency – B2 Level is required.

Career opportunities

LEIF graduates will be able to work in all sectors related to financial intermediation, banking and insurance, as well as pursue an academic career in the fields of finance and regulation.

In particular, they can work in banks and other financial intermediaries, in insurance companies, in the financial departments of large corporations, in consulting firms active in fields related to financial intermediation, in audit firms in the fields of banking and insurance, in research institutions, in central banks, in supervisory authorities (both at the national and international level), in regulatory agencies.
